

**RESTRICTED CERTIFICATE OF COMPETENCE.**

Restricted CoCs are only available to overseas scaffolders on fixed term visas. A Restricted CoC can be renewed for further terms of two years, as long as the scaffolder is working on a fixed term visa. If the scaffolder becomes a permanent New Zealand resident they will not be eligible for a renewal and will have to complete the blended assessment process.

New Zealand citizens or anyone eligible for permanent residence must complete the blended assessment process to complete the New Zealand qualification.

The table below indicates the approximate equivalency of the most common overseas qualifications (that we have come across to date) with the NZ Certificates of Competence.

Please note that each application is looked at individually so there may very rarely be a unique case but most applications will fit the table below. Please note that all applications need to be supported by CVs and work histories.

Overseas Qualification	NZ CoC level
<p><b>CURRENT Valid CISRS (Construction Industry Scaffolders Record Scheme) Advanced Scaffolder Card (UK) GOLD</b></p> <p><i>Please note that most Middle East countries will need CISRS.</i></p>	Advanced CoC
<p><b>CURRENT Valid CISRS (Construction Industry Scaffolders Record Scheme) Scaffolder Card (UK) BLUE</b></p>	Elementary CoC
<p><b>CURRENT Valid CSCS (Construction Skills Certification Scheme) Registration Card Scaffolding (Ireland)</b></p>	Advanced CoC
<p><b>CURRENT Valid License to Perform High Risk Work (Australia), Photo Registration Card</b></p> <p><b>SB</b> Basic Scaffolding,  <b>SI</b> Intermediate Scaffolding,  <b>SA</b> Advanced Scaffolding</p> <p><i>License experience varies per state. PHIT</i></p>	<p>Advanced CoC if they hold <b>all three classes</b> specific to scaffolding.</p> <p>Elementary CoC for classes SB and SI</p>
